

# Minimalism

Chattanooga Modern Quilt Guild | April 2018 | Kelly Spell

“Minimalism identifies works of art most often comprised of geometric shapes in simple arrangements and lacking any decorative or dynamic flourishes.”

[Artsy.net](https://www.artsy.net)

“Minimalist art can be seen as extending the abstract idea that art should have its own reality and not be an imitation of some other thing.”

Tate

“Minimalist art is generally characterized by precise, hard-edged, unitary geometric forms [and] rigid planes of color.”

[Guggenheim.org](https://www.guggenheim.org)
